

Fairfield College

23 August 2021

Kia ora e te whaanau

This afternoon the Prime Minister informed the country that Alert Level 4 will remain in place until 12:59pm on Friday 27 August. This was a predictable decision and we now await Cabinet's Friday 27 August alert levels decision.

Thank you to our teachers that are busy organising digital distance learning and the support that we are receiving from our support staff. Today, we delivered approximately 100 digital devices to our year 13, year 12, and year 11 students that responded to the [Fairfield College distance learning form](#) that was included in the August 20th communication. Tomorrow, we will distribute digital devices to our year 9 and year 10 students.

Schools have been granted an exemption by the Ministry of Health to enter the school site solely for the purpose of organising the distribution of devices and hard resource packs. Staff are not allowed to come on site unless it is for the purpose of enabling distance learning and this is being monitored by myself and the deputy principals. We are hoping to have all devices and hard copy resources distributed by 5pm, Wednesday August 25.

Please note that it is only in very limited circumstances that students, parents or caregivers are allowed to come to the school grounds. So please do not come to school unless you have been individually contacted by us to do so. Otherwise, you will be in breach of the COVID-19 Health Response Order.

You may be wondering how, with so many contacts being identified of confirmed cases, we aren't seeing bigger case numbers identified. Just like the [Delta variant is different](#), so has been New Zealand's response. Previously we might have moved to Alert Level 2 or 3 if there was a new COVID-19 case in the community (which happened most recently in Wellington). This time we moved immediately to Alert Level 4, after only one case had been identified.

Health authorities are also casting a MUCH wider net to determine who is a contact of a confirmed case. People who previously might have been considered a casual contact are now being treated as contacts. Where schools may have closed for three days while contact tracing was undertaken, they are now closing for 14 days with staff and students all self-isolating for that time. As a result, there are more than 13,000 close contacts being followed up by health authorities.

There is a lot we can all do to protect our whānau and community from COVID-19 including:

- Everyone must continue to stay home in their bubble
- Do not mix with other household bubbles – if they have COVID-19, it can easily spread to your household, and every other household they and you are connecting with

Be respectful
Be responsible
Be the best you can be

PO Box 12-228

- As new cases are identified, [new locations of interest are added to the Ministry of Health website](#) – please keep checking this. You can search by your location and they are sorted by date, so you only need to check the locations which have been added when you last checked
- Wash your hands regularly, especially when you have been out in public
- Stay home if you are feeling unwell and seek advice about whether you need to get a test
- Wear a face covering when out and about, and you MUST wear a face covering in any businesses or services which are open at Alert Level 4 (unless you have specifically been exempted from doing so, which includes anyone aged under 12)
- Keep a two-metre distance from people outside your household bubble
- Check in using the [NZ COVID Tracer App](#) wherever you go or keep a manual record (a reminder the App only stores information on your own phone – no one else will know who it is that checked in, or when)

You can go to the [COVID19.govt.nz website if you would like more information on Alert Level 4 requirements](#).

We can also make sure we are passing on good information. There is a very helpful article by [Dr Siouxsie Wiles and Toby Morris in The Spinoff](#) regarding misinformation and disinformation.

Their red flags for how to spot bad information are particularly well-summarised. Bad information will:

- downplay COVID-19 and the pandemic
- focus on survival rate
- ignore long COVID
- emphasise individual freedom
- try to sell you something
- push simple cures/treatments
- make you feel fearful or angry.

“Good information put out to help you make an informed choice won’t make you feel scared or angry. It’ll make you feel empowered.”

Finally, we know some families in our community may be finding it difficult to access food and essential items such as medicine. This information about [how to access to food or essential items](#) summarises the supports that are available, including financial help to buy food.

Please do take care and let us know how we can best support you and your whānau.
Kia haumarū - Be safe

Naaku noa, naa
