

# Isolation Guidelines

Please be respectful in your communication with a student that you believe is showing symptoms of being unwell. This is to reduce any embarrassment/anxiety that a student could feel in being identified and the impacts that this could have on other students in class.

The following plan is to be activated if a student is presenting with COVID-19 symptoms.

## COVID SYMPTOMS ARE :

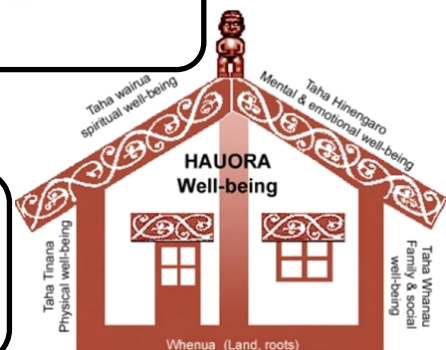

- A new or worsening cough
- A high temperature
- Shortness of breath
- Sore throat
- Runny nose or blocked nose
- Temporary loss of smell

Send the student to the Hauora Centre with a note/yellow slip to be out of class. This could have suspected covid case written on it. From here they will be triaged on their symptoms. If presenting with Covid-19 Symptoms they will be directed to the Hall (Green Room) and be placed in isolation. They will be supervised via video link.

The Hauora Centre will contact home and request that Whaanau come and collect the student from school and record on KAMAR.

The student will be given an information letter from the nurse for their parent/caregiver outlining the school process. They will also be provided with a Rats Test to take home with them.

The student is to remain in isolation in the Hall (Green Room) until the Whaanau have been able to collect them from school. Whaanau will come to Reception and student will meet them in the front carpark.

Isolation area to be sanitized by the Nurse after student has been collected.
